

Intermediate class is for those who experienced beginners class.

For Intermediate class, we will perform the sword making process in 2 days or 3 days by advanced class in 1 week.

It is like the cooking program of TV, participants work on the head part of each process, and sword-smith compensates for work that requires the rest of the time.

Intermediate level requires physical fitness so we put a two day break between working days even if it is 2 days.

Depending on the intermediate work, you will be able to produce 4 steel horses from 3 small horses.

If you do not need a knife you can also create a kitchen knife.

The cost is 160,000 yen in 2 days.

In the case of 3 days, the additional cost is 20,000 yen.
